SIX ORPHANS' HOMES AND TWO HOSPI-TALS AMONG THE RESULTS.

Miss Clara Barton, president of the American National Red Cross, arrived in Cuba about six weeks ago to attend personally to Red Cross work Miss Barton has had a staff in members have accomplished will be found in owing reports made to Miss Barton by her J. B. Hubbell. Miss Barton was renested to resume her labors in Cuba by the Presiat General Brooke and Surgeon-General Stern-She is also looking after the needs in Porto and large shipments of supplies left here for hat place on the transport McPhersen, which that place on Wednesday. Since April last the Central

an Relief Committee has shipped to Cuba on of Miss Barton over eighty tons of misus food, clothing, medicines, hospital supimplements, seeds and other article shell's reports were submitted by her to the etral Cuban Relief Committee, of which Stephen Barton is chairman and ex-Mayor Charles A. Dr. Hubbell's report of his work, from its com-

mencement in April, and its better progress in closing with Jaruca, embraces the founding of six orphans' homes and the re-establishment refitting of one home and two hospitals. He

patients removed to it, since which is have occurred, all hopeless cases. The orphans which Mr. Goriga had

sickness, destitution and want in that place, which had been five cred by the insurgents during its panish troops. Its population

sultation among themselves, and asked to be permitted to take their turn in the kitchen, dining room, chamberwork and teaching of this institution. And when we reasoned with them, reminding them that this would be a serious and laborious task, they replied firmly: "What are we here for? Why have we existed as a club, if not to do something? Our work has come to us?"

They brought their sewing machines to the asylum and worked unremittingly until every child had new, clean garments. Over a fifth of the young girls in the palmical huts were brought in, and are under the careful supervision of the Mayor and Mr. Floris. These girls are now clothed, healed and able to go into any family for service or for a home.

Mr. Floris. These girls are now ciothed, healed and able to go into any family for service or for a home.

From observation of its numerous mendicants that thronged every passenger train that halted in the station, as well as from a personal examination of the town, we were led to consider San Felipe as an exceedingly difficult, if not a hopeless one for us to undertake. But realizing that something must be done, not only for the reputation of Cuba, but to relieve the travelling public of the presence of the ragged, dirty, diseased and dangerous body of assaliants, even if police force were required, we decided to make the attempt.

A generous wildow gave the use of the best house in the town for an asylum. Dr. Adolph Dias, the school teacher, as freely gave up the house he occupled for a school and residence and offered his services gratuitously as teacher in our newly proposed home. Dr. Carbonelle, in connection with Dr. Dias, went to the station at train time and collected from the promiscuous gatherings all the orphans and wildows. They were sent to the house and put to work cleaning it up, and so quietly was this done that no one was aware that any change had been contemplated, until the widows, their children and the orphans were quartered in their new home; medically treated, cleanly provided, with beds, tables, food and even books for the school. This entire change was wrought in two days.

Dr. Dias, who gives most of his time at present to the sick poor at San Felipe, was so gratified with the work in his town that he carnestly asked if something could not be done in San Antonio. This, town, being on the border, similar to Catallina, had been repeatedly entered by the insurgents, who destroyed nearly all the better houses; but the best that remained, including the City Hall and Mayor's residence, were immediately put at our disposal, free of cost. One of those helonging to an orphangil of one of the older families was accepted. Beds, new goods in the piece and food were sent out. The residence of Gener

Ings of the city were offered free, as well as the services of the best people, both men and women. One of the finest houses on the outskirts of the city, with ample grounds for cultivation, was transferred into a model orphan asylum; with Dr. Pardinas at its head, assisted by his wife and other women. The use of the sulphur baths of this watering-place was given free to this asylum, and over sixty orphans were sheltered here.

At San Nicholas there were a hundred orphans and nothing had been done for their relief. A meeting was called in the evening in the City Hall, presided over by the Mayor. About thirty orphans were placed in the asylum, as many as the first house could accommodate.

Jaruca was the first place in which any relief work was personally done outside of Havana before the war. Jaruca at that time had a popular

fore the war. Jaruca at that time had a population of over 7,000, but it is now only 1,500. When the Red Cross work began there for the second time the use of the hospital was given. Supplies were sent from Havana, and when the boxes were opened women were ready with their sewing machines to start in the work of making garments. In co-operation with Dr. Gonzales, United States Sanitary officer of Pinal del Rio, we expended \$130 in cleaning and repairing the civil hospital at Guanajay, which is admirably fitted for the care of its patients, and supplied it with forty beds and bedding, and made three shipments for its sick.

WAR TAX EVADED ON EXCHANGE.

MEMBERS OF THE CONSOLIDATED PAY U THEIR ARREARAGES STOCK BROKERS TO RECEIVE ATTENTION.

Special Revenue Agent Thompson recently learned that certain members of the Consolidated Stock and Petwleum Exchange were evading the payment of the \$2 tax, required by the War Revenue law on every one hundred shares of stock sold by them ments for the taxable sales tickets customarily delivered in effecting stock transactions. In response to Mr. Thompson's notification the delin-quent brokers have during the last week been paying up the amount of their tax arrentages, and not only these brokers, but others also, who had not had ascertained that they were under surveillance The Government has in this way during the last reek received many thousands of dollars revenue. Mr. Thompson, it is understood, will soon extend his inquiries to certain Stock Exchange houses, his information being that sufficient reason exists to warrant the institution of such investigation; and he is also about to take up the case of brokers, who have not paid their special revenue tax as brokers. The bucket-shops, too, must pay taxes under the War Revenue law, Internal Revenue Commissioner Wilson having issued a letter

in which he says:

In the case of every agreement to sell at a bucketshop there is both a presumptive buyer and a presumptive seller; and this is true whether the customer agrees to sell stock to the manager or the
manager agrees to sell stock to the customer. In
either case the memorandum of the agreement to
be made and stamped. Where the agreement to
sell has been made and no delivery of stocks takes
place, and the party holding the agreement of sale
wishes to close the transaction by disposing of his
interest in said agreement and settles with the
holder of the contract by paying a difference between the agreed price and the market price, in
contemplation of law there is an agreement to resell
the shares to the original seller, which must be
